Time Slot Management for loading of packed goods at site of BASF Construction Additives GmbH in 83308 Trostberg / Germany

The operator of the chemical industrial park in Trostberg introduced a Time Slot Management for all packed goods picked up at our premises in Trostberg.

Please note that you, respectively your freight forwarder, needs to perform the following steps to book a **dedicated time slot in the system at least 20 hours before collecting the goods on the day indicated by our sales order:**

- Go to <https://rampman-alzchem.logsol-gmbh.de/home>
- Request a one-time login, you will get two emails with log-in credentials and password
- Use these credentials to log in again, navigate to “bookings” and “daily overview”
- Choose ramp group “**G20 (BASF)**” and the respective loading day
- Choose a time slot and enter mandatory our **BASF sales order number (338...)** as loading reference, **any other numbers will get refused at the loading point.**

As this tool is operated by our logistics service provider Alzchem GmbH please contact Mr. Alexander Russinger / alexander.russinger@alzchem.com for all technical issues related to this booking tool.

Best regards
