

# Efka® SI 2041 / SI 2042 / SI 2751

Power Up your coatings to exceed performance and sustainability standards

## Application:

- Next generation silicone defoamers for universal usage in solvent-based systems.
- Industries: Suitable for architectural paints, general industrial and wood coatings. Efka® SI 2751 is in addition well-suited for Printing & Packaging and Adhesives.

## Sustainability Highlights:

- Match the sustainability goals of the future
- Fulfills certain food contact compliances (Efka® SI 2751)

## Performance Highlights:

- Excellent deaering performance
- Universally applicable  
(suitable for a broad range of resins systems)
- Excellent value in use

## Characteristic Values:

	Efka® SI 2041	Efka® SI 2042	Efka® SI 2751
Appearance:	Clear, colorless liquid	Clear to slightly hazy liquid	Clear, colorless liquid
Density at 20°C [g/cm³]:	~ 0.91	~ 0.96	~ 0.90
Refractiveness index:	~ 1.400	~ 1.405	~ 1.375
