

## **BASF's Lab Assistant always at hand:**

How to add the web app to the home screen of your smartphone.

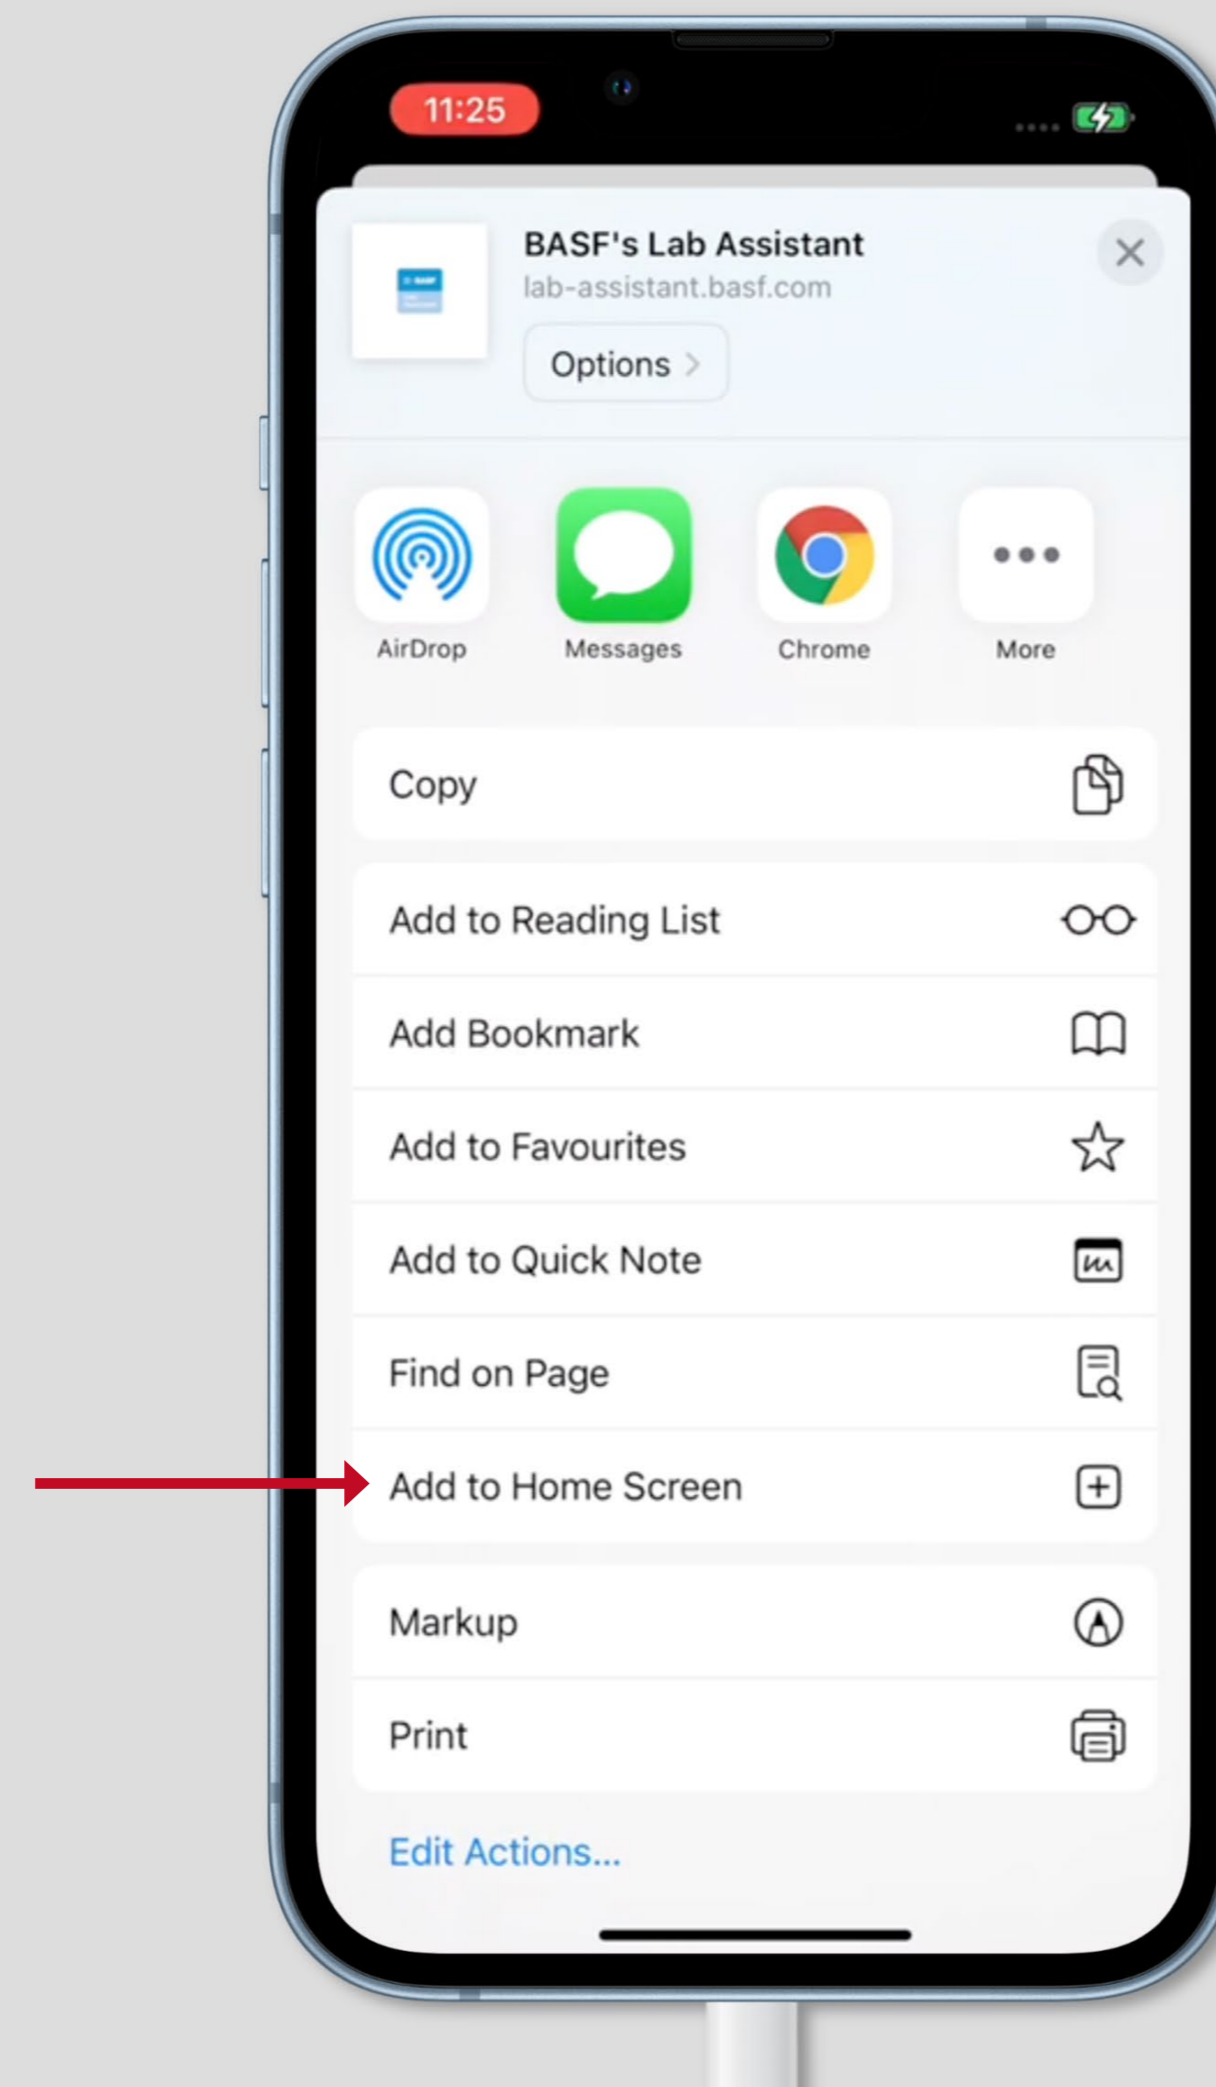

# On Apple devices

## Step 1

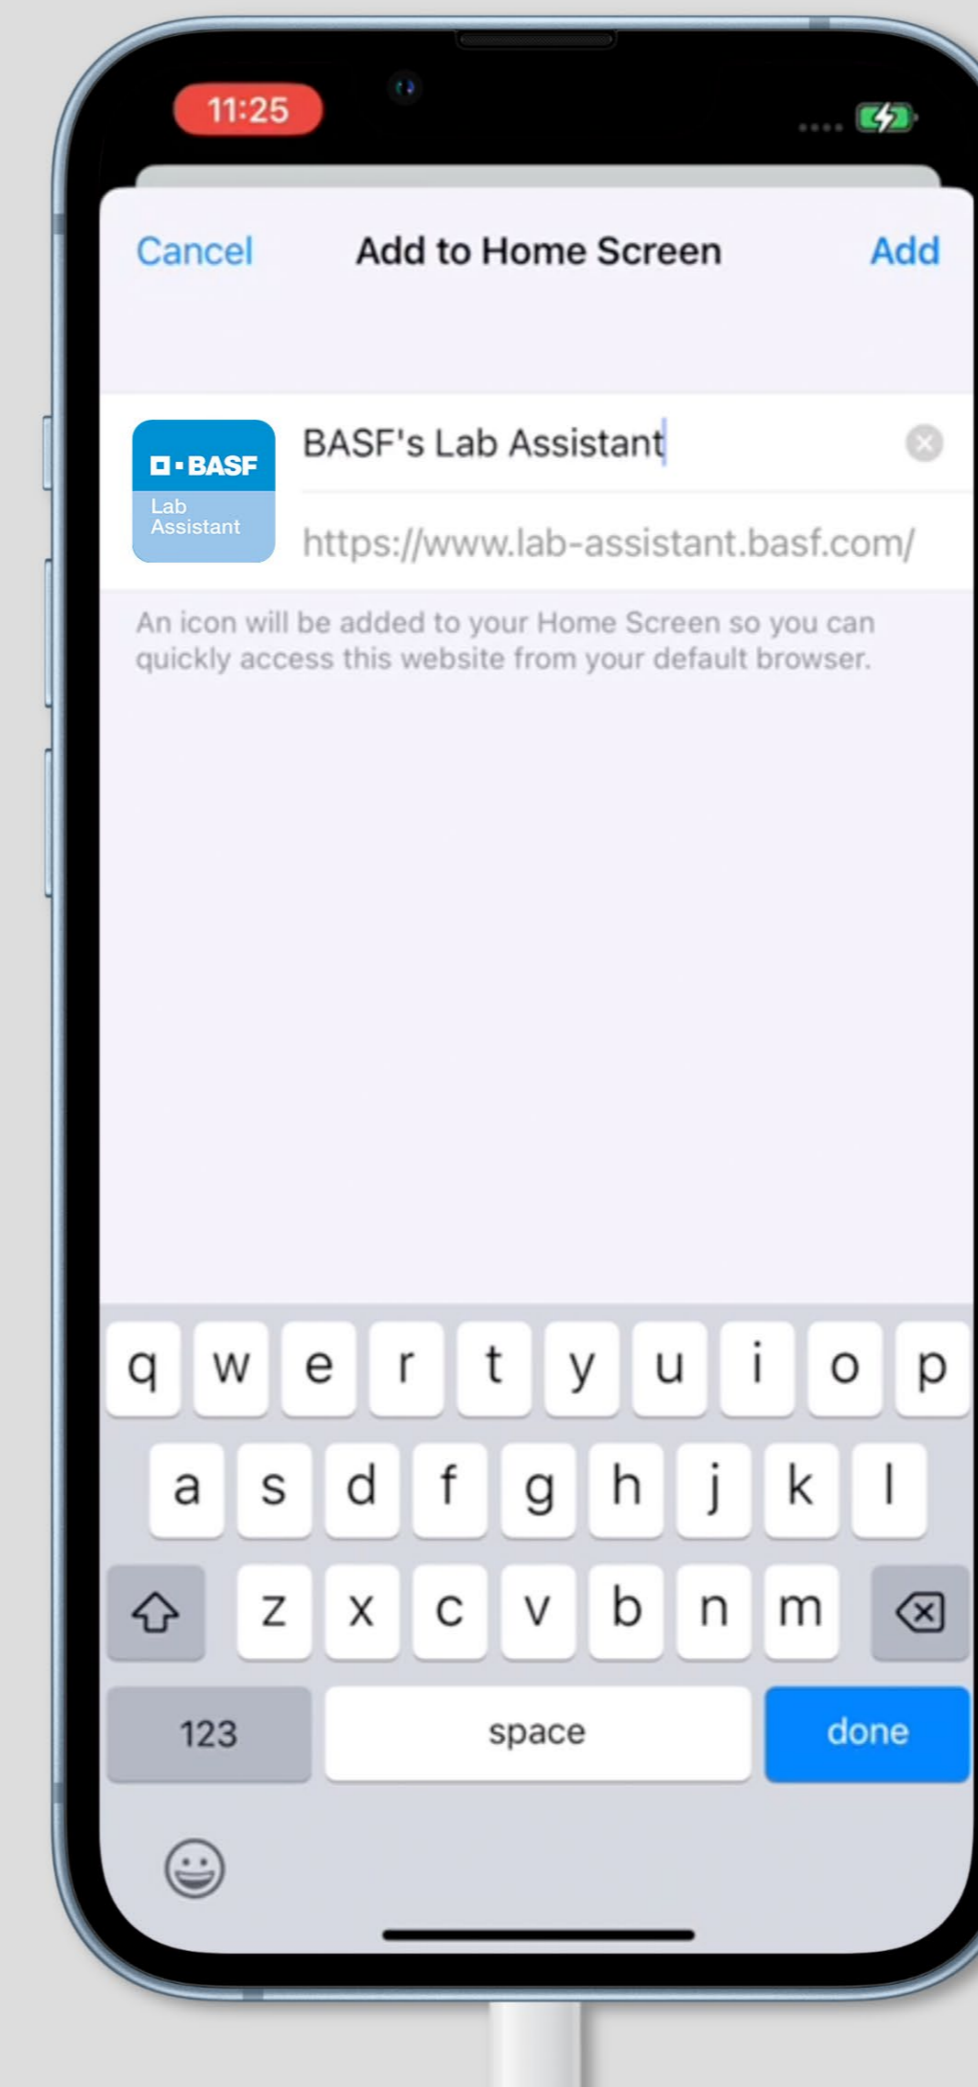

Open **lab-assistant.basf.com** in the **Safari Browser**. 

Tap the **“Share-Button“**

## Step 2

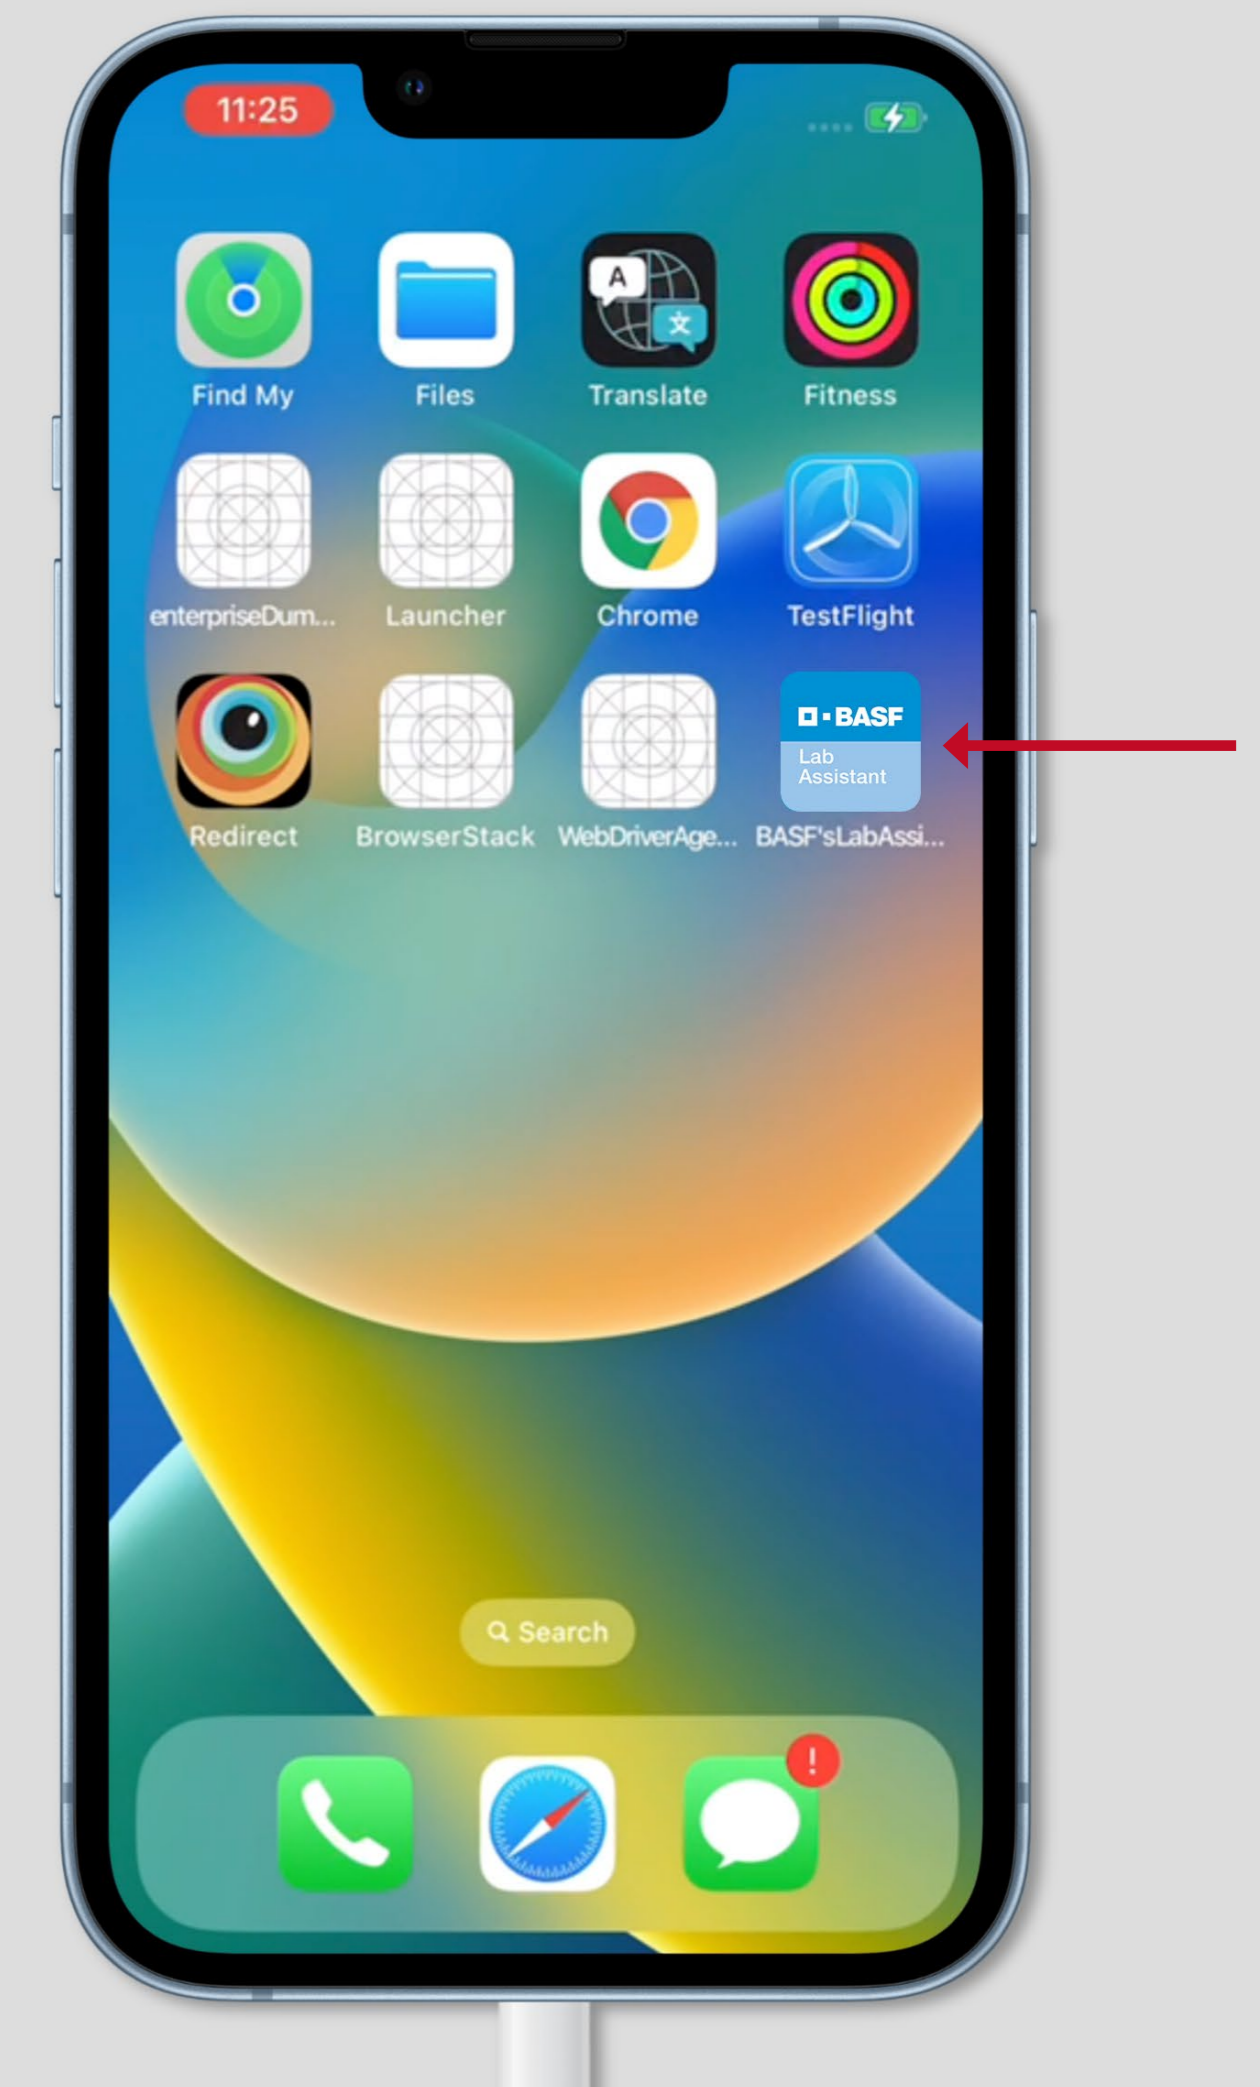

In the upcoming pop-up dialog, tap the **Add to Home Screen** option.

## Step 3

In the next step you can optionally assign a name for your bookmark.

Tap the **“Add Button“**.

## Step 4

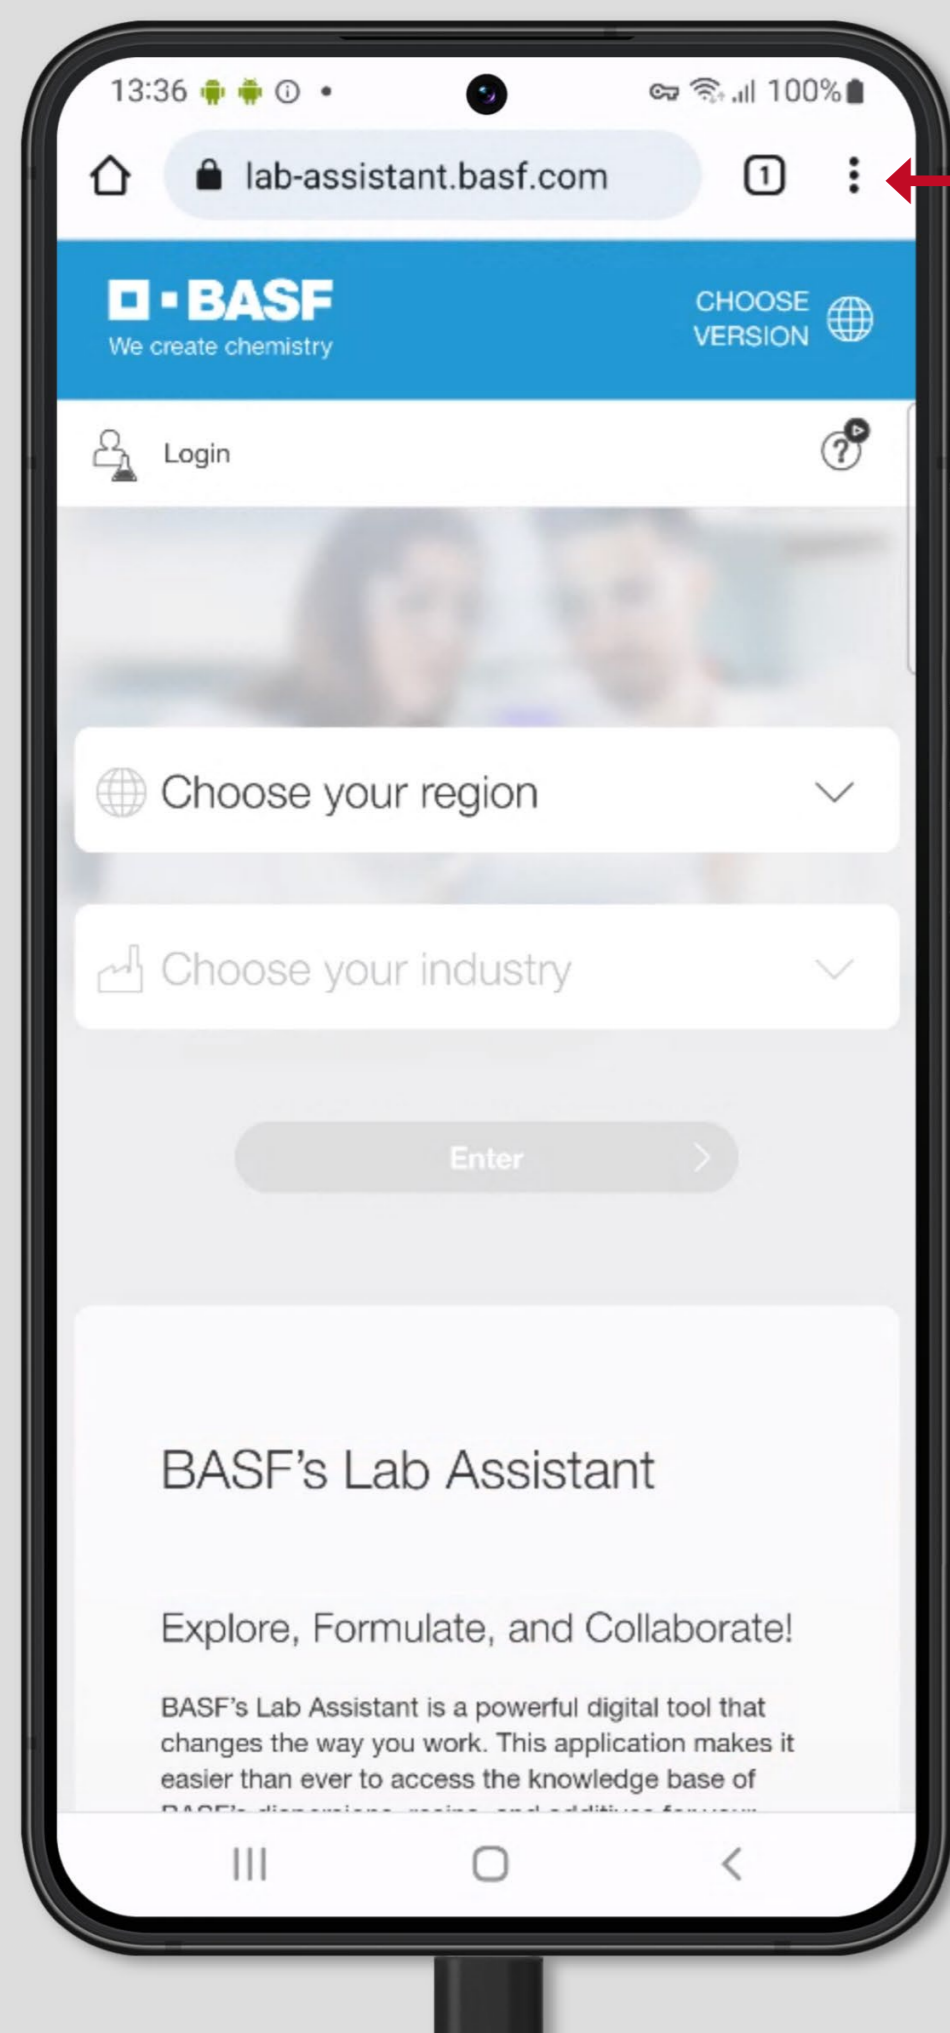

An **App icon** has been created on your Home Screen so you can quickly access BASF's Lab Assistant from your default browser.

# On Android devices

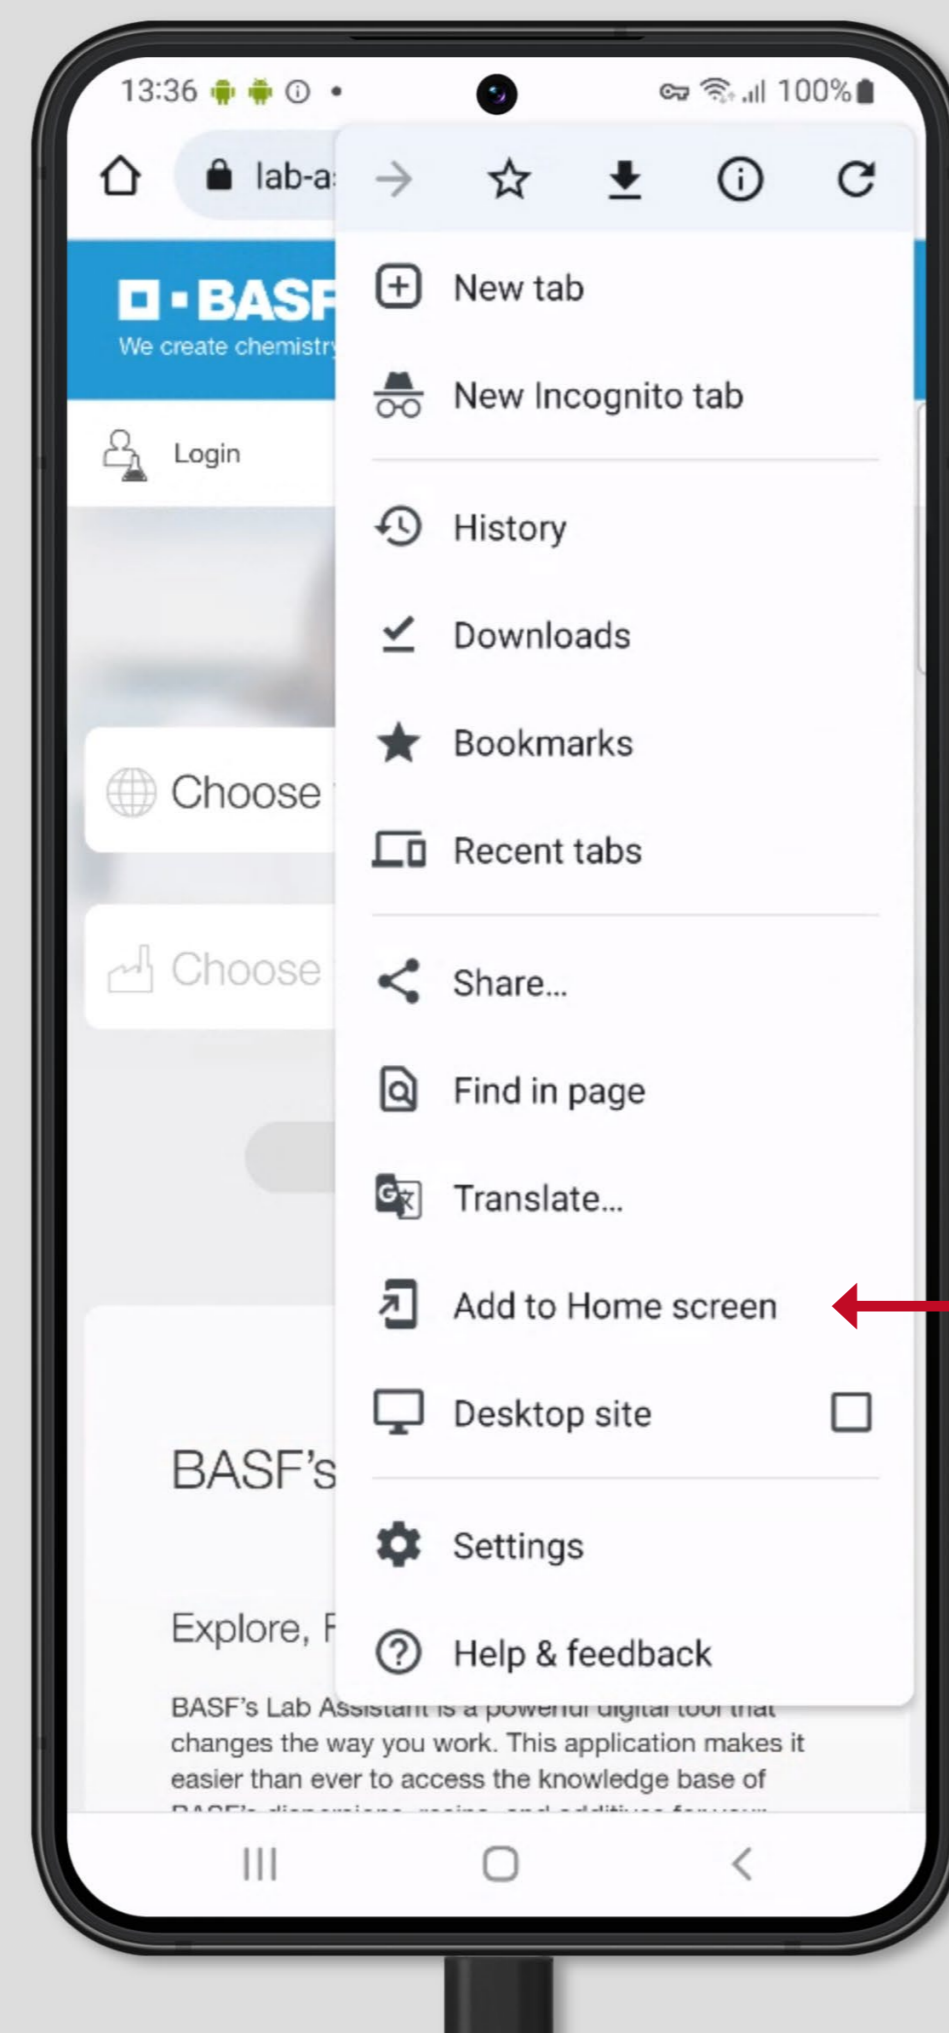

The exact sequence may differ slightly on different Android devices.

## Step 1

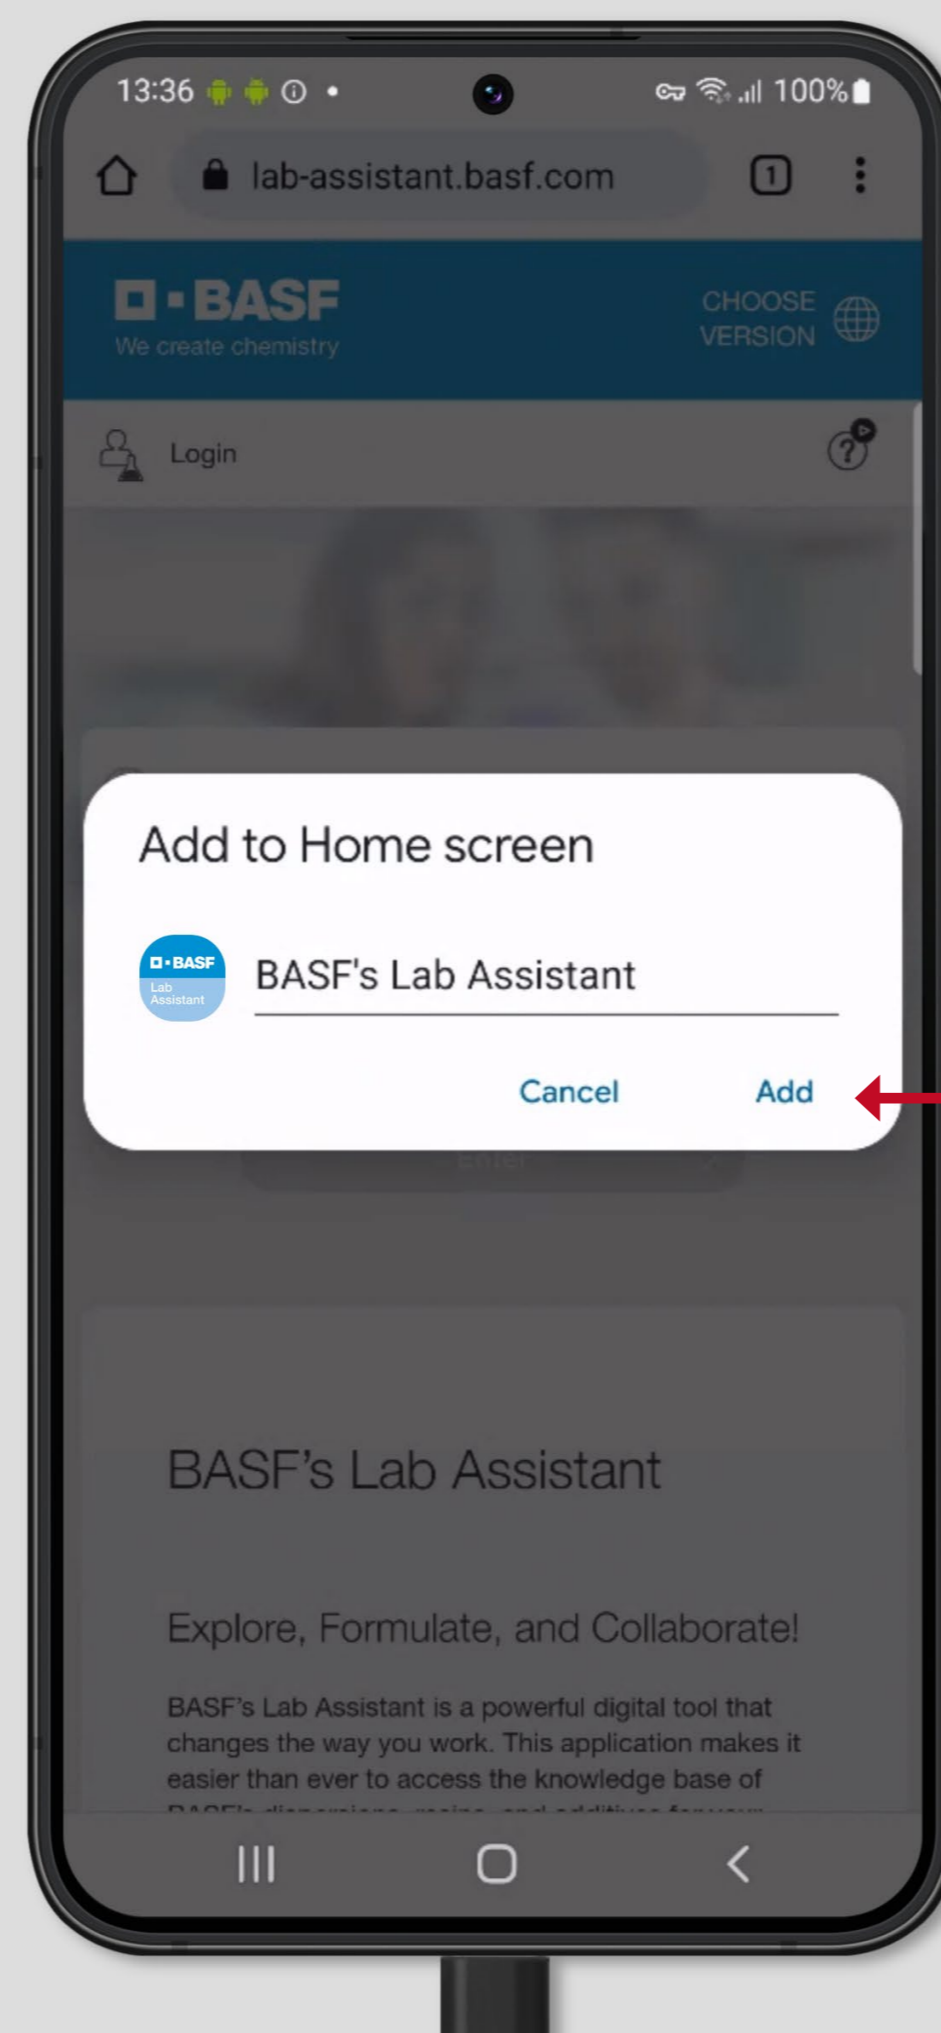

Open **lab-assistant.basf.com** in the **Chrome Browser**. 

Tap the **“Settings-Button”** (⋮)

## Step 2

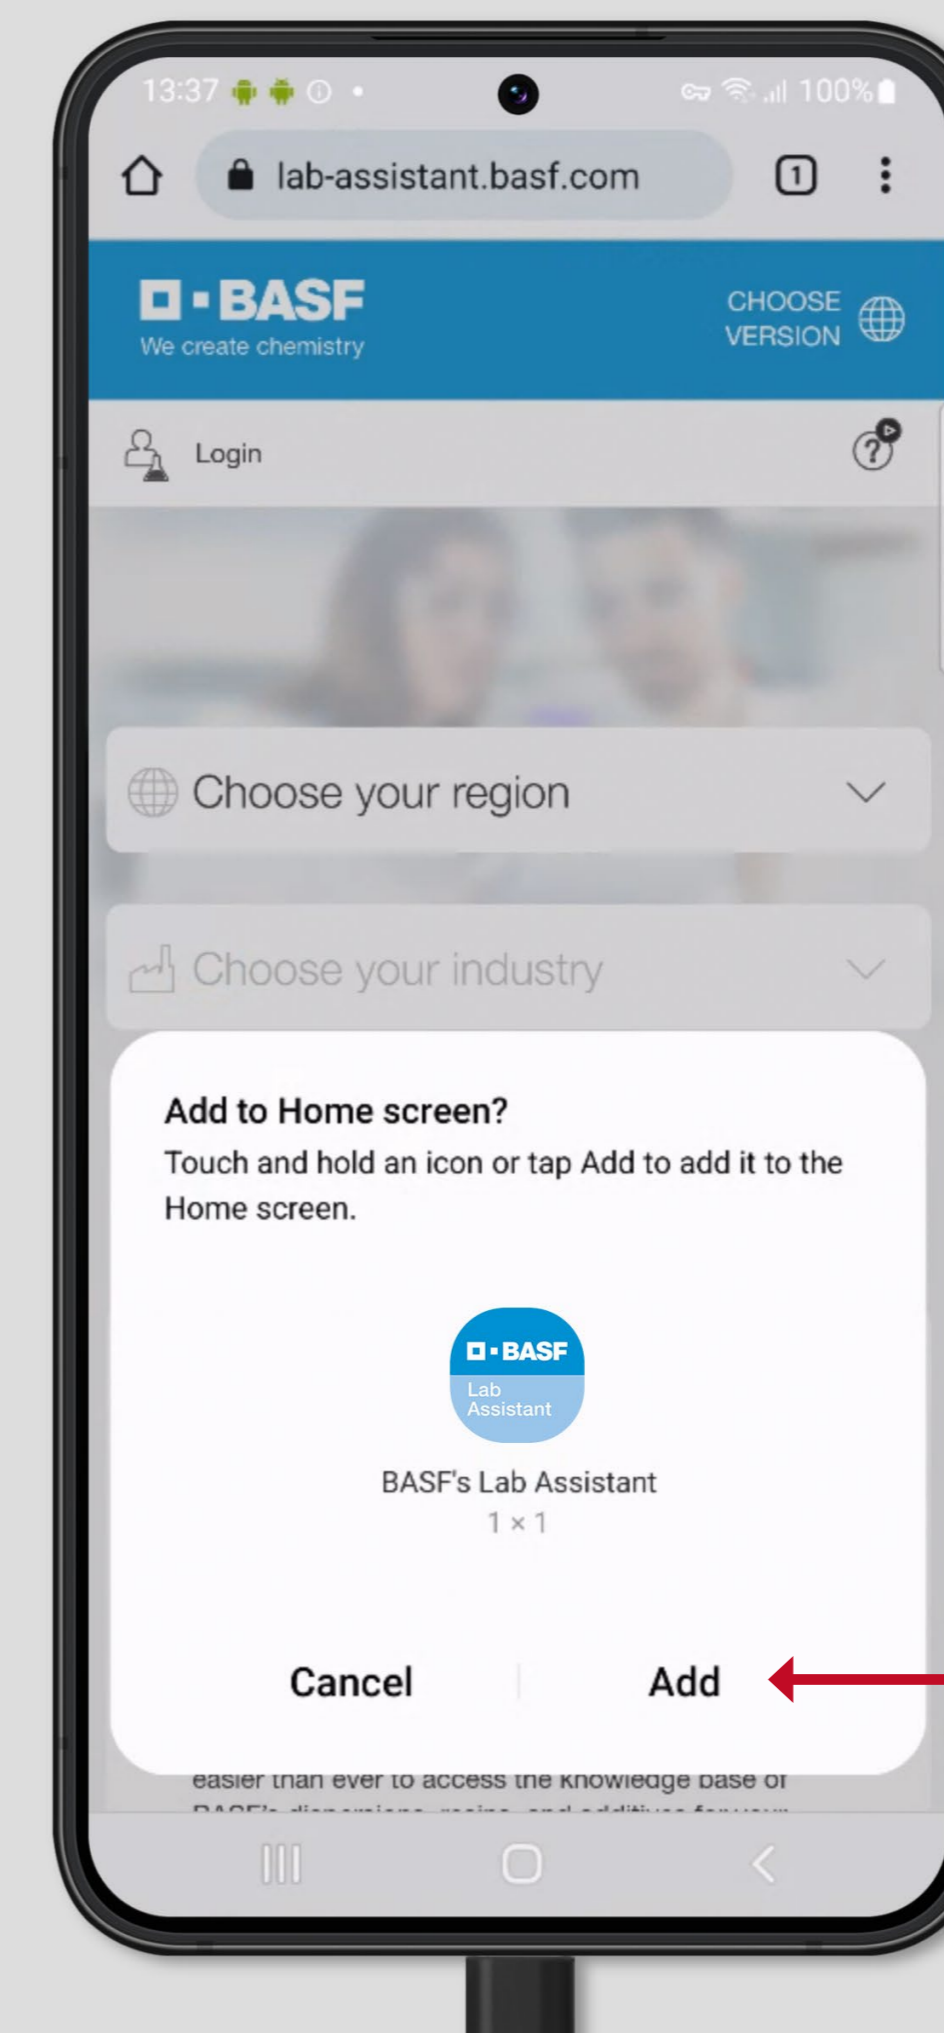

In the upcoming pop-up dialog, tap the **Add to Home Screen** option.

## Step 3

In the next step you can optionally assign a name for your bookmark.

Tap the **“Add Button”**.

## Step 4

Tap the **“Add Button”** again to confirm your choice.

## Step 5

An **App icon** has been created on your Home Screen so you can quickly access BASF's Lab Assistant.
